Teaching Italian in the Tri-State Area Public and Private Schools. Become part of it!

The Italian American Committee on Education (IACE), a 501(c) 3 non-profit organization, receives each year a financial contribution from the Italian Ministry of Foreign Affairs to support the Italian classes within the curriculum of the public and private schools of the Tri-State Area, providing for the purchase of educational materials and for the salaries of teachers of Italian. Please, visit IACE's website (www.iacelanguage.org/grants) to find out more details about how grants are allocated to public and private schools offering Italian language courses.

To assure that each year more and more students will learn our language – and hopefully join the AP Italian program in High School- we would like to invite the Italian-American associations, private companies and individual contributors to take part in the initiative of the Italian Government in sustaining the Italian language in public and private schools.

To support this initiative, please contact IACE:
